The image shows a window titled "x:131 y:-100" with a grid background. A black outline of a house is drawn on the grid. The house consists of a square base with a triangular roof on top. A small red triangle, representing a chimney, is attached to the right side of the square base. A red arrow points to the chimney. The window has standard Windows-style window controls (minimize, maximize, close) in the top right corner.
